**Lead developer python**

Do you want to live a new professional adventure and take part in a rewarding experience? Join the INTM Group.

The INTM Group is looking for talents that will evolve through stimulating assignments for our Key Accounts customers.

**Job description :**

As a Lead Python Developer, you will contribute to a project. Within an experienced team, your main tasks will be the following:

- Develop, implement and improve the Python code of a project;
- Perform unit, functional and technical tests;
- Take care of the follow-up and maintenance of the current system;
- Improve or create data analysis solutions;
- Create technical documentation.

Required Skills:

- Mastery of the Python language;
- Web languages: JS, HTML, CSS;
- Framework such as Django or Flask would be a plus.

**Profile description :**

With a higher education in computer science, you have at least 2/3 years of experience in a similar position. Your level of English is operational.

Are you passionate about the world of IT, are you curious and do you like teamwork? Don't wait any longer because this assignment is made for you!

*This position is open to people with disabilities.*
